

Phase 1 -- Requirement Analysis & Planning

Functional Scope & Objectives

Date	2026-07-01
Project Name	Automated Employee Onboarding & Offboarding System
Author	AYUB HUSSAIN SHAIK
Organization	SKILLWALLET INTERNSHIP
Document	Functional Scope Document

1. Streamline Employee Lifecycle Management

Description

Digitize and automate onboarding and offboarding processes through ServiceNow to reduce manual work, ensure consistency, and improve employee experience.

Key Objectives

- Automate employee onboarding and offboarding workflows
- Reduce manual HR and administrative work
- Maintain consistency in employee lifecycle processes
- Improve the overall employee onboarding experience

Expected Outcome

- Faster onboarding process
 - Reduced operational delays
 - Efficient employee lifecycle management
-

2. Enhance HR and Manager Efficiency

Description

Provide HR teams and managers with self-service catalog items and automated workflows to speed up approvals and task assignments.

Key Objectives

- Implement self-service service catalog items
- Automate approval workflows
- Enable automated task assignments to departments
- Improve lifecycle tracking for HR and management

Expected Outcome

- Faster approval processes
 - Reduced manual coordination between departments
 - Increased HR and managerial productivity
-

3. Ensure Secure Role-Based Access

Description

Implement role-based Access Control Lists (ACLs) to ensure secure access to employee information and system functionality.

Key Objectives

- Implement Role-Based Access Control (RBAC)
- Configure ACLs to restrict unauthorized access
- Allow departments to access only relevant tasks
- Protect confidential employee data

Expected Outcome

- Secure employee data management
 - Controlled access for HR, IT, Facilities, and Security teams
 - Compliance with organizational security policies
-

4. Enable Data-Driven HR Decisions

Description

Use dashboards and reporting tools to analyze HR processes and improve operational efficiency.

Key Objectives

- Monitor onboarding timelines
- Track task completion rates
- Measure SLA adherence
- Identify workflow bottlenecks

Expected Outcome

- Improved visibility into HR processes
 - Better decision-making using analytics
 - Continuous improvement of employee lifecycle workflows
-

5. Support Organizational Compliance & Sustainability

Description

Maintain proper audit trails and shift from manual paperwork to digital processes.

Key Objectives

- Maintain audit trails for approvals and actions
- Automate access revocation during offboarding
- Digitize HR documentation and workflows
- Reduce dependency on paper-based processes

Expected Outcome

- Improved regulatory compliance
 - Secure and structured offboarding procedures
 - Environment-friendly digital workflows
-
