

Phase 5 -- Deployment, Documentation & Final Presentation

Demo Video Plan & Script

Date	2026-07-01
Project Name	Automated Employee Onboarding & Offboarding System
Author	AYUB HUSSAIN SHAIK
Organization	SKILLWALLET INTERNSHIP
Document	Demo Video Plan

Overview

This document specifies the organization and demonstration points for a **video walkthrough of the system**. The presentation will illustrate complete system functionality spanning request submission, authorization workflows, task distribution, Service Level Agreement tracking, and request completion. The video showcases the end-to-end automation capabilities implemented in ServiceNow.

Video Demonstration Sequence

Section 1: Portal Interface Demonstration

Access Path: Service Portal > Service Catalog > HR Services > Onboard / Offboard Employee

Presentation Highlights:

- Introduce the Service Portal interface
 - Navigate through **HR Services category** structure
 - Open the **Onboard / Offboard Employee** catalog entry
 - Explain the catalog form's functional purpose
-

Section 2: Request Form Submission

Procedure:

1. Choose **Request Classification** (Onboarding or Offboarding)
2. Complete all required input fields:
 - Employee Identification
 - Department Assignment
 - Manager/Supervisor
 - Commencement Date / Departure Date
 - Equipment & Asset Information
 - System Access Specifications
3. Finalize and submit the form

Presentation Highlights:

- Demonstrate conditional form field rendering using **UI Policies**
 - Illustrate how fields adapt based on request type selection
-

Section 3: Authorization & Manager Workflow

Presentation Highlights:

- Demonstrate request transmission to **manager-level personnel**
- Display authorization request interface for manager review
- Execute authorization action to activate subsequent workflow stages

Section 4: Automated Department Task Distribution

Following authorization, the system automatically creates tasks for:

- HR Department
- IT Department
- Facilities Department
- Security Department

Presentation Highlights:

- Display automatically generated task assignments
- Show task allocation and activity progression

5. SLA Monitoring

Demonstration Points

- Show SLA timers attached to departmental tasks.
- Explain how SLAs help track task completion deadlines.
- Demonstrate SLA status updates.

6. Notifications

Demonstration Points

Show automated **email notifications** sent to:

- Managers for approval requests
- Departments for task assignments
- Employees for status updates
- Request closure confirmation

7. Request Lifecycle Completion

Demonstration Points

- Show completion of all departmental tasks.
 - Demonstrate automatic **status updates in the Employee Lifecycle table**.
 - Show final request closure.
-

End-to-End Lifecycle Summary

The demo video should clearly show the complete lifecycle:

1. Request Submission
 2. Manager Approval
 3. Task Creation
 4. SLA Monitoring
 5. Notifications
 6. Task Completion
 7. Request Closure
-

Expected Outcome of Demo

The demonstration should clearly show:

- Automation of employee lifecycle processes.
 - Coordination between HR, IT, Facilities, and Security teams.
 - Workflow transparency and lifecycle tracking.
 - Improved efficiency through ServiceNow automation.
-
